3. **The Resolution:**
    - **Rock crushes Scissors** (Rock wins)
    - **Scissors cuts Paper** (Scissors wins)
    - **Paper covers Rock** (Paper wins)
4. **The Payout:** A win usually pays 1:1 minus a cottage commission (comparable to Baccarat), while a tie either leads to a pushed bet or sets off a sudden-death tiebreaker round.

Standard Payouts and House Edges

In a simply theoretical game, the chances of tossing any of the three signs are equal (33.3% opportunity each). However, human psychology alters these statistics, and gambling establishments execute particular guidelines to protect their revenue margin.

Bet Type Outcome Standard Payout House Edge **Basic Win** Player beats House 1:1 (Even Money) ~ 2.5% to 5% (via tie rules) **Tie/ Push** Player and House match Money returned Varies **Precise Match Side Bet** Predicting *how* you win Up to 5:1 ~ 7.1% **Streak Bonus** Winning 3 rounds in a row Approximately 10:1 ~ 6.5%
