Players position a stake before a virtual airplane takes off. As the aircraft rises, a multiplier boosts in real-time. The objective is basic in theory, yet heart-pounding in practice: squander your profits before the flight ends, crashes, or flies out of range. If the player fails to cash out before the flight ends, the original stake is lost.

For those brand-new to the format, the mechanics of Avia Masters are simple, though mastering the timing requires discipline. Here is how a normal round unfolds:
