1. Coin Flip

This is the most frequent bonus offer round. A coin with a red side and a blue side is turned by a device. Each side is assigned a random multiplier before the flip. Whichever side lands face up awards the player that multiplier.

2. Money Hunt

Envision a huge shooting gallery screen including 108 random multipliers concealed behind numerous signs (like a cactus, a target, or a sheriff's badge). The gamer utilizes a virtual crosshair to intend and shoot at a symbol, revealing the multiplier concealed behind it.

3. Pachinko

Influenced by the traditional Japanese arcade game, this round includes a massive wall filled with pegs. The host drops a puck from the top, and it bounces down randomly up until it lands in one of the slots at the bottom, each including a multiplier. If the puck lands on a "Double," all multipliers on the board double, and the puck is dropped once again.

4. Crazy Time

This is the ultimate bonus offer round, accessed through a red door behind the primary wheel. Players are transferred into a lively, virtual world including a huge, vibrant wheel with 64 sections and three flappers (Green, Blue, and Yellow). Players select their flapper. The wheel spins, and whatever multiplier it stops on is granted. If it hits "Double" or "Triple," all multipliers increase, and the wheel spins once again-- scaling approximately an incredible 20,000 x max win.
