What is Big Bass Crash?

At its core, **Big Bass Crash** is a social multiplayer "crash" game. If you have actually ever played titles like *Aviator* or *Spaceman*, the foundational mechanics will feel familiar. The objective is simple: place a bet, enjoy the multiplier rise, and cash out before the angler's line snaps, the boat breakdowns, or the fish gets away (the "crash" event). If a player successfully cashes out before the crash, they win their stake multiplied by the current cash-out value. If the crash occurs before they squander, the bet is lost.

Core Features and Game Mechanics

While the property of a crash game is straightforward, Pragmatic Play has integrated numerous player-friendly features to enhance the user experience, keep engagement, and mirror the familiar *Big Bass* branding.

Unlike basic crash video games where a single crash eliminates everything, Big Bass Crash introduces an unique twist inspired by its fishing theme. During the game, if a crash occurs, a web might randomly sweep up a portion

of the active bets, returning a percentage of the stake to the player.
