Do You Need A Cordless Jigsaw?

If you are in the market for a new jigsaw, or are interested in adding to your collection, you are in luck. There are a lot of jigsaws on the market today that provide a great level of performance for a relatively low price tag. The most important thing to consider when buying a jigsaw is the level of features that you get for your money. Of course, the more money you pay the more features you are going to get. But at the same time, if you can find a less expensive model with a lot of features you are doing a good job.The top rated cordless jigsaw on the market today is Hose Bros Inc the 18 volt Bosch 52318. The number one drawing feature of this model is its smooth cutting power. When you are sawing with the Bosch 52318 you never have to worry about getting caught up. It offers the smoothest operation out of all of the jigsaws on the market today. Another great advantage of this unit is that the battery carries a two year warranty, and the jigsaw itself carries a three year warranty. This means Hose Bros that you will never have to worry about repair costs for the first two years of ownership. And even after the warranty runs up you should not have any problems; Bosch makes some of the most reliable and durable tools in the world. For all of these features you will have to pay approximately $215.If you are not enamored by all of the features of the Bosch, you may want to stick with the cordless jigsaws that are in the budget category. These tools will not be as powerful or precise as the top models, but they are still high quality products. If you are searching for a budget model look no further than the Ryobi P520. This model offers easy to use features, including an easy blade change system. It is ideal if you are in need of rough cutting, or if you do not use a jigsaw on a regular basis. This model can be yours for only $50.A cordless jigsaw is a great addition to any tool collection. When you are buying, you need to determine whether you are looking for top notch quality and design, or price. Either way, there are many models of cordless jigsaws on the market for you to choose from.
