

Some materials used in Green construction

Wool Brick

- Wool + Seaweed Polymer+ Clay
- 37 % more strength
- Resistant for cold and wet

Sustainable Concrete

- Crushed glass , wood chip, slag from steel industry
- Reduction in CO₂ emission

Solar Tiles

- Absorbs energy from sun
- Protect building
- Steady indoor temperature

Paper insulation

- From recycled newspapers & cardboards
- Filled with chemical foam
- Insect & Fire resistant

Ecofriendly

- Use rapidly renewable
- Bamboo instead of steel

Triple-Glazed Windows

- Super-efficient windows
- Stops :Heat to enter building
Direct sunlight
