Perdue Exterminators is not just a company that serves Cave Spring; it is a company that lives there. The family bought property on Old Cave Spring Road in the early 1980s and built the office that still serves customers today. For residents of southwest Roanoke County, that means the pest control company down the street has spent four decades learning exactly what local homes deal with.

Cave Spring's mix of established subdivisions, wooded lots and creek side properties creates a familiar set of pest pressures. Homes along Back Creek and near Mud Lick Creek see higher moisture, which brings camel crickets, cockroaches and carpenter ants. Wooded backyards near Starkey, Penn Forest and the slopes toward Bent Mountain see mice, spiders and wasps. Termite pressure from eastern subterranean colonies is present across the area, regardless of a home's age.

Perdue's general pest control service covers the everyday invaders, while specialty services handle termites, bed bugs, ants, rodents, spiders, crickets and flying insects. Termite elimination comes with renewable annual warranties, and bed bug work starts with a free inspection and consultation. Rodent control relies on baits and traps that do not use toxic poisons, a choice many families with pets appreciate.

Perdue Exterminators | 4323 Old Cave Spring Rd, Roanoke, VA 24018 | (540) 989-8188

The Value of a Neighborhood Company

Being close by matters. When a technician has worked professional pest company Roanoke in Cave Spring for years, they recognize the construction styles of each subdivision, the drainage problems on particular streets and the seasonal timing of local pest activity. Customers on the company website describe dependable, timely service and technicians who take extra care around children and pets, which is easier to deliver when the company knows the community it works in.

Cave Spring homes change hands regularly, and real estate transactions often require a wood destroying insect report. Perdue prepares these reports and also offers water testing and septic inspection reports, handy for the more rural parcels in southwest Roanoke County that are not on public utilities.

The company was founded by S.G. Perdue in 1969 and is now led by owner and President Jeff Hudson. It remains family owned, and it still runs on the same promise: large enough to serve you, but small enough to know you.

For pest control in Cave Spring and southwest Roanoke County, call Perdue Exterminators at (540) 989-8188 or stop by the office at 4323 Old Cave Spring Rd, Roanoke, VA 24018.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
