

Performance experience is an essential part of a complete violin education, and LVL Music Academy provides its students with regular recital and performance opportunities that go well beyond simply preparing for ABRSM examinations. The academy organises local recitals and masterclasses, and its annual [Great site](#) overseas music exchange programme gives students the opportunity to perform in an international context. For students who purchase their violins from LVL's shop, the availability of performance opportunities at the same institution creates a virtuous cycle of development. Playing for an audience, receiving feedback from experienced teachers and guest artists, and experiencing the preparation process for a public performance all contribute to a depth of musicianship that examination preparation alone cannot provide. Parents who are looking for a violin shop and academy that takes the long view of their child's musical development will find LVL's commitment to performance and international experience particularly compelling. The instruments sold by the shop are chosen and set up with the demands of performance in mind, not simply practice room use.

LVL Music Academy | 17 Yuk Tong Ave, Singapore 596322 | +65 8200 4711
