2. **Temporary Disability Benefits:** Wage replacement while recovering.
3. **Permanent Disability Benefits:** Compensation if the injury leads to long-term impairment.
4. **Vocational Rehabilitation:** Assistance with returning to work.

The Basics of Social Security Benefits

What Is Social Security?

Social Security is a federal program that provides financial assistance primarily through two main programs: Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI). Both programs serve different populations but share the common goal of providing financial support.

Eligibility Requirements for Social Security Disability Insurance (SSDI)

To be eligible for SSDI:

- You must have worked long enough in jobs covered by Social Security.
- You must have a medical condition that meets the definition of disability as outlined by the Social Security Administration (SSA).

How SSDI Differs from SSI

While SSDI requires that recipients have a sufficient work history, SSI is based on financial need and is available even if you haven't worked previously.

Can You Collect Social Security While Receiving Workers Comp Benefits?

Yes, you can collect both Social Security benefits and workers' compensation simultaneously; however, there are important considerations regarding how they may affect each other. The SSA considers your total income when determining your eligibility for SSDI.

Impact on Social Security Benefits from Workers' Comp

If you're receiving both forms of benefits, your SSDI payments may be reduced based on the amount you get from workers' comp. The SSA has specific guidelines on how much can be deducted from your SSDI payments when you are receiving concurrent workers' comp benefits.

The Interaction Between Workers' Comp and SSDI

How Are Payments Calculated?

When calculating SSDI payments for someone receiving workers' compensation:

- The SSA will take into account your total income from both sources.
- They will ensure that combined payments do not exceed 80% of your average current earnings before becoming disabled.

Example Calculation Table: Combined Benefit Impact

Source Monthly Amount	-----	-----	Workers' Comp \$2,000	SSDI Before Reduction \$1,000
Total Before Adjustment	\$3,000	Allowed Maximum (80% Avg Earnings)	\$2,400	
Adjusted SSDI Payment	\$400
