

LVL Music Academy operates both a physical violin shop at 17 Yuk Tong Ave in Singapore and an online shop at lvmusicacademy.com, allowing customers across Singapore and beyond to browse and purchase instruments, strings, accessories, and other string instrument products without needing to visit in person. The online shop carries a selection of LVL's current stock including violin accessories, strings, rosin, cases, and other essentials for the practising violinist. For higher-value instruments such as handcrafted violins and quality bows, a visit to the physical shop is recommended so that the player can try the instrument before purchasing. Alan Senejani's personal assessment and recommendation is a service that cannot be replicated online. Customers who live at a distance from Beauty World or who prefer to browse from home can use the online shop as a starting point and then contact LVL directly by phone or email to discuss specific instrument enquiries. The team responds promptly to online enquiries and is happy to arrange video calls for customers who want to see an instrument before visiting.
