- **Liquidity**: Some items might be difficult to sell quickly, particularly those in the lower rarity tiers.

6. Tips for Collectors

- **Focus on "Covert" and "Gold" items**-- These yield the greatest ROI, though the chances are low.
- **Keep an eye on Valve's release schedule**-- New case launches frequently trigger older cases to appreciate as supply diminishes.
- **Use price-tracking tools**-- Sites like CS2Stash, Buff163, or SteamAnalyst provide real-time market information to inform buying decisions.
- **Store products during market dips**-- If a skin's price crashes after a case opening, holding it for a few months can settle when need resurges.
- **Think about raw case investment**-- Purchasing cases before a significant competition (when player interest spikes) can be a low-cost, low-risk speculation strategy.
