

Laser Hair Removal and Arizona Summers in McCormick Ranch Summer in McCormick Ranch tends to revolve around water, from neighborhood pools to paddle time on the lakes, and that means shaving, waxing and the irritation that follows become a constant chore. Plenty of residents eventually ask whether laser hair removal could take some of that routine off their plate. The Skin Shop Medspa Scottsdale, owned by registered nurses Cyndie Nohr, RN and Shelly Stump, RN, offers laser hair removal at its office on N Scottsdale Rd near Shea Blvd. Laser hair removal directs light energy at the pigment in hair follicles, which can reduce future growth in the treated area. It is best described as long-term hair reduction rather than a one-time fix, and it typically takes a series of sessions because hair grows in cycles. Both owners earned laser certifications at the National Laser Institute, and that training shapes how they assess skin type, hair color and treatment settings for each person. Timing matters in Arizona. Laser treatments and fresh sun exposure do not mix well, so the nurses talk with clients about protecting treated skin and planning sessions around vacations, lake days and outdoor events. Starting a series in the cooler months is one approach some people prefer, but the right schedule depends on your skin [med spa scottsdale](#) and calendar. Results vary, and a complimentary consultation is where your individual plan is set.

The Skin Shop Medspa Scottsdale | 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 | (480) 948-1759

Google reviewers have mentioned laser hair removal among the services they received, and the practice holds a 5.0 rating from 79 reviews overall. A common thread is that the nurses explain what to expect without overselling. For McCormick Ranch residents, the office is a short drive west and north, with on-site parking and free street parking once you arrive. Common treatment areas include the legs, underarms, bikini line and face, though the nurse will confirm what suits your skin and hair. Before each session, clients are usually asked to shave the area and to skip waxing or plucking, since the laser needs the follicle in place to work. Sessions are spaced weeks apart to line up with hair growth cycles, and most people need several before the reduction becomes noticeable. Because summers here involve so much sun, the nurses also talk about sunscreen and covering treated areas between appointments to keep skin calm. If you are tired of planning your summer around a razor, it may be worth talking with a nurse at a Scottsdale med spa before the next pool season arrives. Book online through Fresha or call (480) 948-1759. The Skin Shop Medspa Scottsdale is located at 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254, and is open Tuesday through Saturday, with Thursday and Saturday hours of 10am to 3pm.

The Skin Shop Medspa Scottsdale Address: 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 Phone: (480) 948-1759 FAQ About Med Spa Scottsdale What is the difference between a med spa and a day spa? A day spa focuses on relaxation services such as massages and basic facials, while a med spa provides medical aesthetic treatments like Botox, dermal fillers, microneedling and laser procedures. At The Skin Shop Medspa Scottsdale, those treatments are performed by registered nurses who are certified nurse injectors. Every plan begins with a review of your health history during a complimentary consultation. Who performs the treatments at The Skin Shop Medspa Scottsdale? Treatments are performed by the co-owners, Cyndie Nohr, RN and Shelly Stump, RN, both registered nurses and certified nurse injectors with more than 50 years of combined medical experience. They met while training at the National Laser Institute, where each earned certifications in laser, advanced injectables and cosmetic procedures, and they still treat clients personally. How much does Botox cost at a med spa in Scottsdale? Botox pricing depends on how many areas are treated and how much product each area needs, so the cost varies from person to person. At The Skin Shop Medspa Scottsdale, the nurse explains pricing for your specific plan during a complimentary consultation before any treatment. Google reviewers often describe the pricing as fair for the quality of care, and a membership program and financing options are available. How long does Botox last? For most people, the effect of a neurotoxin such as Botox or Jeuveau lasts about three to four months before muscle movement gradually returns. Results vary with factors such as the area treated, muscle strength and metabolism. The nurses set an individual maintenance schedule during your consultation, and online booking through Fresha makes it easy to plan the next visit. How long do lip fillers last? Hyaluronic acid fillers such as Juvederm and

Restylane commonly last six to twelve months or longer, depending on the product used and the area treated. Results vary, and your own timeline is discussed at a complimentary consultation. Co-owner Cyndie Nohr, RN is known for natural-looking lip filler and a go slow approach that leaves room to add more later. Is microneedling good for acne scars? Microneedling is commonly used to help improve the look of acne scarring and uneven texture by prompting the skin's own repair response. The nurses at The Skin Shop Medspa Scottsdale are candid that the goal is improvement rather than removal, and results vary with the type and depth of the scars. Some clients also discuss PRP therapy or Vivace RF microneedling as part of their plan. How many microneedling sessions will I need? Microneedling is usually planned as a series of sessions spaced several weeks apart, because the skin responds gradually. The exact number depends on your skin, your goals and how it responds, so the nurse sets the plan during a complimentary consultation. Reviewers mention receiving a follow-up text after treatment to check how their skin was settling. What is a HydraFacial and is there downtime? A HydraFacial combines cleansing, gentle exfoliation, extraction and hydration in one appointment, which suits skin dried out by the Arizona climate. It generally involves little or no downtime, so most people return to their normal plans afterward. At The Skin Shop Medspa Scottsdale, the treatment can be customized for sensitive skin, something Google reviewers have specifically mentioned. Is laser hair removal permanent? Laser hair removal is best described as long-term hair reduction rather than a permanent result. It requires a series of sessions spaced weeks apart because hair grows in cycles, and results vary by skin type, hair color and treatment area. Both owners hold laser certifications from the National Laser Institute, and sessions are planned around Arizona sun exposure. What should I avoid before Botox or filler? Before injectables, the nurses ask about medications and supplements that may raise the chance of bruising, as well as recent treatments, allergies and upcoming events. It is best to follow the specific guidance you receive at your consultation rather than stopping any prescribed medication on your own. Scheduling filler well ahead of weddings or photo shoots also leaves time for any swelling to settle. Does The Skin Shop offer a membership or financing? Yes. The Skin Shop Medspa Scottsdale offers a membership program for clients who visit regularly, and members who have left Google reviews describe it as worth it. There is also a financing and payment options page for larger treatment plans. The nurses can explain which option fits your plan when you call (480) 948-1759. How do I choose a med spa in Scottsdale? Start by asking who will perform your treatment and what their credentials are, then look for a practice that offers a thorough consultation and sets honest expectations. Read reviews for patterns rather than single comments. The Skin Shop Medspa Scottsdale is RN-owned, offers complimentary consultations, holds a 5.0 rating from 79 Google reviews and sits on N Scottsdale Rd near Shea Blvd.
