What is Bitz Crypto Casino?

Bitz is an online video gaming platform running mainly with cryptocurrencies. It allows gamers to deposit, wager, and withdraw using popular digital possessions like Bitcoin, Ethereum, and Tether, along with standard fiat alternatives in some areas. The platform is designed to provide a seamless, anonymous, and quickly betting experience without the bureaucratic delays typically associated with standard online casinos.

By leveraging blockchain technology, Bitz intends to offer provably reasonable gaming and instantaneous payouts, eliminating the middlemen that usually slow down banking transactions.

Video Game Selection: Variety and Quality

Among the first things gamers look for in an online casino is the video game library. Bitz does not dissatisfy in this regard, providing countless titles sourced from a few of the industry's leading software application service providers, consisting of Pragmatic Play, Evolution Gaming, NetEnt, and Microgaming.

1. Online Slots

Slots make up the bulk of the Bitz library. Gamers can find whatever from timeless three-reel fruit devices to modern-day video slots featuring cascading reels, Megaways mechanics, and immersive stories. Popular titles vary from high-volatility experience slots to relaxing, low-stakes video games.

2. Live Casino Games

For those looking for the genuine atmosphere of a brick-and-mortar casino, Bitz features a robust live dealer section. Powered by giants like Evolution Gaming, the live casino offers real-time streaming of traditional table video games hosted by expert croupiers.

- Blackjack
- Roulette

- Baccarat
- Poker variants
- Game shows (e.g., *Crazy Time*, *Monopoly Live*)

3. Table Games and Provably Fair Originals

In addition to live dealerships, Bitz offers standard RNG (Random Number Generator) table video games. Additionally, the platform includes a selection of "provably reasonable" crypto video games-- easy, hectic games where gamers can separately validate the fairness of every single video game round utilizing cryptographic algorithms.
